## III. Installation Options

**Caution:** When determining sink placement, be sure to check that there is adequate clearance behind the sink for any faucet(s) and your backsplash, as well as clearance for a full range of motion for faucet spouts and handles.

## IV. Undermounted installation

### Step 1: Position Template

Unpack the new sink and check the contents of the materials supplied: Sink, Mounting brackets, and Cutout template (depending on model). Contact your retailer if any product is damaged or missing prior to installation. Never install a damaged sink as it can void your warranty.

Determine the installation type you prefer, cut out the appropriate template for your sink model.

⚠ **Make sure clearance is suitable for backsplash, faucet, and plumbing for the sink.**

### Step 2: Trace Template and Cut Countertop

Trace template on countertop with a pencil.

Cut the opening in the countertop by carefully following the traced line.

⚠ **NOTE: Please use the appropriate saw that best fits your countertop material.**

### Step 3: Sink installation

Turn the sink over and apply a generous bead of silicone sealant along the bottom of the sink rim.

**Do not use epoxy.**

### Step 4: Sink installation

Insert the sink into the opening, check the alignment of the sink to the cutout in the countertop and press firmly.

**⚠ Warning! To be avoid of risk of personal injury or product damage, Handle with care. The product can break, chip, cause injury or product damage.**

## Step 5: Countertop Installation

After cleaning, apply a bead of silicone sealant between the top flange (or lip) of the sink and the countertop to create a watertight seal. Clean excess silicone immediately. Verify the overall appearance and check for levelness to ensure correct drainage. Carefully place the countertop and verify that it is level.

## Step 6: Connect water supply and drainage system per manufacturer's instructions. Run water to test for leakage

## VI. Products Care and Maintenance

Clean your sink on a regular basis with warm soapy water. Rinse the sink after using cleaning products. Wipe the sink surface with a soft cloth to remove any liquid residue. Do not cut food directly on the surface of the sink. Do not leave sharp objects on the surface of the sink for an extended period of time.
